How we can help you

All This and More

- ◆ We can help you with your growing needs for complete and accurate documentation of your medical reports.
- ◆ We do this securely, confidentially, and on time. We do this right every time.
- ◆ We can help you to reduce your overall costs including manpower, supervision, equipment and facilities.
- ◆ We help you bill faster.
- ◆ We can help you transition to electronic medical records.
- ◆ We transcribe reports in multiple specialties, and in whatever format you choose.
- ◆ Above all, when you use our services, you can focus on what you do best — providing excellent patient care!

How we do it

How Our System Works

1. Physicians either dictate into our state-of-the-art digital dictation system (available 24 hours a day, seven days a week) or upload sound files to our servers using their own digital handheld recorders.
2. Digital voice files are transmitted to our servers. All incoming data is captured on high availability fault tolerant systems.
3. The voice files are transcribed in the desired format by highly qualified, full time transcriptionists with in-depth knowledge of medical terminology. We currently transcribe all major medical specialties. All our dictation and transcription systems are HIPAA compliant, encrypted and secure.
4. The completed reports in the desired formats are returned electronically to the client's account on our website, within 24 hours of dictation receipt. Customized management reports help each client track the dictation, transcription, and delivery of their transcripts.

Who we are

Health Information Services, Inc. was formed with the objective of providing high quality and cost effective solutions to meet the increasing information needs of health care professionals.

Our strategy is to work with experienced, quality-oriented transcriptionists and to deploy the latest in computer and communications technologies to provide total customer satisfaction, and build long term relationships with our clients.

See for yourselves the difference we can make for your practice today! Call us to take advantage of our
